FAB/PH SERIES

FULLY AUTOMATIC ROTARY MEDICAL & PHARMACEUTICAL MACHINE

YOUR MARKET ... OUR SOLUTIONS

The **FAB/PH Series** rotary type heat sealers are designed for medium to higher volume production requirements where automatic feeding and unloading is desired. These machines may be used for conventional carded blisters, full face blisters and half-clamshell styles as well as applications using medical paper, Tyvek, foils and other heat sealable lidstock. The **FAB/PH Series** units are available in six (6) and eight (8) station designs. Models are available in standard sealing areas of 14 x 18 inches and 18 x 24 inches. Larger sealing areas are available on request.

For machines capable of higher production rates please consider Starview's **CBS/PH** inline conveyor sealing machines.

the **STARVIEW** **ADVANTAGE**

- A wide range of standard and custom features available to match customer requirements.
- Generous use of stainless steel in the structure for the most durable finish in the industry.
- Color touch screen HMI for the ultimate in operator convenience and accessibility. Includes storage for 99 databases and on-screen data tracking.
- A Starview exclusive remote access via standard Ethernet hardwire or optional Wi-Fi router gives management access to real-time process information from the machine.
- On-screen temperature calibration standard with optional on-screen pressure calibration available to simplify validation using direct access validation ports.
- Ultra-high pressure sealing presses used in conjunction with matched aluminum tooling to give consistent sealing patterns with any heat sealable medical lidding materials. Hydro-pneumatic press available for cold seal materials.
- Precision indexing rotary table for precise sealing fixture to matching relieved face plate alignment.
- Industry leading design, construction, features and customer support.
